

## FEATURED COURSE - JULY 2010

### The Art and Science of Foundational Dentistry

Course date: **Tuesday, July 06, 2010 07:00 PM (EST)**  
Receive 130 C.E. credits for attending this course.

#### COURSE DETAILS

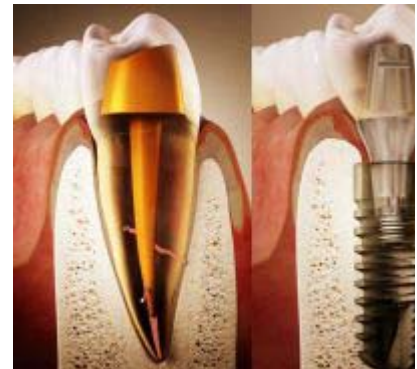

An assessment of whether to rehabilitate a tooth requiring endodontic treatment or to replace it with a dental implant can often involve a challenging and complex decision-making process.

**Course fee: \$3,450.00**

*\* Course fee does not include individual hands-on course registration fees, travel and accommodations or any expenses to attend the Alumni Meeting.*

This is a focused curriculum, pertaining to both treatment modalities, which identifies key issues that need careful consideration in planning the most appropriate course of care in a given clinical situation. A need to appreciate advances across both disciplines is emphasized, allowing the development of effective interdisciplinary evidence-based treatment strategies to maximize treatment outcome.

This curriculum offers dental professionals a carefully planned sequence of learning experiences, including, first and foremost, online attendance of lectures, along with hands-on and group learning opportunities. By hosting the main body online - the theory content - we ensure that the curriculum is as accessible as possible to those willing to learn, independent of their geographical location, with an equal chance of success.

*Copyright Ovidiu Ciobanu*

This curriculum is designed to help those practitioners who are interested in better preparing themselves to determine which treatment option is most appropriate for each individual patient. Through this program, we offer participants the opportunity to learn from a world-class, experienced faculty, enhancing their strengths and addressing areas for improvement. The curriculum has been developed under the guidance of Dr. Kenneth Serota, who is the Scientific Director, Dr. Fred Barnett and Dr. Jose Hoyo, and will consist of a 130-hour blended learning program (ADA CERP accredited) over a period of two years.

### **SPEAKER DETAILS**

A graduate of Brandeis University and Columbia University School of Dental and Oral Surgery, Dr. Steven Glassman owns and operates a thriving New York City Cosmetic Dental Practice with his wife. As an innovator in the field of Restorative Dentistry, he has published several articles in dental journals, including Inside Dentistry and Contemporary Esthetics Magazine; topics ranging from Invisalign Technology & Restorative Dentistry to Implant Dentistry. His work has garnered recognition from journals like PPAD ("My Best Case" feature) as well as his peers (winner of Align Technology's "Case Shoot-Out" 2006). Recently asked to contribute material to a new Dental Textbook, Dr. Glassman himself has diligently pursued continuing education in his field. He is an Instructor for Align Technologies, teaching the Invisalign Technique, and lectures across the country about other technological advancements like Digital Impressions and Cad Cam Abutments. Along with his wife, Dr. Debra Glassman, they have been featured extensively through the media with spots on Good Morning America, Lifetime Television, Fox 5's Ambush Makeover, 20/20. They have also appeared in The New York Times, Glamour, Mademoiselle, Self and Allure magazines, among others.

### **SPEAKER DETAILS**

Dr. David Clark founded the Academy of Microscope Enhanced Dentistry and is a course director at the Newport Coast Oral Facial Institute. He lectured for Clinical Research Associates in the "Update Series". He authored the first comprehensive guide to enamel and dentinal cracks based on 16 power magnification, and numerous articles relating to minimally invasive dentistry, biomimetic endodontic shaping, diastema closure, and advanced magnification. He helped pioneer the concept of Biomimetic Micro-Endodontics. He serves as an opinion leader for restorative dentistry and endodontics. He introduced the "Clark Class II" for posterior composites. Dr. Clark developed the Bioclear Matrix System

### **SPEAKER DETAILS**

Dr. Barnett received his DMD degree in 1978 and his Certificate in Endodontics in 1981, both from the University of Pennsylvania, School of Dental Medicine. He received his Board Certification in Endodontics in 1986, has served as the Director of Postdoctoral Endodontics at the University of Pennsylvania, and is currently the Vice-Chairman of Dental Medicine and Chairman and Program Director of the Postdoctoral Endodontics at Albert Einstein Medical Center in Philadelphia.

Dr. Barnett has written numerous scientific and clinical papers and has lectured nationally and internationally on the Treatment of Endodontic Infections, Dental Trauma and Contemporary Endodontic Treatment. He currently serves on the Advisory Board of the Dental Traumatology Journal and is an Associate Editor of the Journal of Endodontics. Dr. Barnett has also been in private practice in Endodontics since 1981.

## SPEAKER DETAILS

Kenneth S. Serota, DDS, MMSc graduated from the University of Toronto, Faculty of Dentistry in 1973 and was awarded the George W. Switzer Memorial Key for excellence in Prosthodontics. He received his Certificate in Endodontics and Master of Medical Sciences Degree from the Harvard-Forsyth Dental Center in Boston, MA. A recipient of the recipient of the American Association of Endodontics Memorial Research Award for his work in nuclear medicine screening procedures related to dental pathology, his passion is education and most recently e-learning and rich media. Ken provided an interactive endodontic program for the Ontario Dental Association from 1983 to 1997 and was awarded the ODA Award of Merit for his efforts in the provision of continuing education. He was selected for Fellowship in the Pierre Fauchard Academy and is a Fellow of the Academy of Dentistry International. The author of over sixty publications, he has lectured on Endodontics internationally. He is on the editorial board of Endodontic Practice, Endodontic Tribune and Implant Tribune. The founder of ROOTS – an online educational forum for dentists from around the world who wish to learn cutting edge endodontic therapy, he recently launched IMPLANTS ([www.rximplants.com](http://www.rximplants.com)) and [www.tdsonline.org](http://www.tdsonline.org) in order to provide a clear understanding of the endodontic/implant algorithm in foundational dentistry. As well, he lectures on the empowerment digital technologies provide to the sophistication of the dental team and the propagation of comprehensive care.

## SPEAKER DETAILS

Educational Background:

Undergraduate degree in Medical Microbiology with a minor in Chemistry from California State University at Long Beach 1979

1983 Graduate of Howard University College of Dentistry

Professional Summary:

After graduating from Howard University in 1983, Dr. Kelly accepted a position working with one of his former professors and also worked at the University as an Academic Reinforcement Instructor. Dr. Kelly realized that this was not the career path that he wished to follow so he moved back to Los Angeles, California to establish his practice. While waiting to pass the board examination Dr. Kelly worked at Southern California Edison Company as a Medical Analyst. This allowed Dr. Kelly to negotiate health care contracts and it also gave Dr. Kelly the opportunity to conduct health care seminars for the employees of the company.

Shortly after becoming Board Certified, Dr. Kelly joined Group Practices gaining invaluable experience in the various dental disciplines. Dr. Kelly eventually opened his own practice which proved to be a great move, and eventually opened a second satellite practice in Playa Del Rey, California, in one of Southern California's more affluent neighborhoods. This practice immediately excelled and became the primary practice until he moved to North Carolina. The move to North Carolina was spawned by an offer that would allow him to practice in a more peaceful, intimate life style and environment for his family while producing \$75K to \$100K per month while also allowing him to eventually move into the type of Dentistry he had long envisioned, Oral Implantology, continuing Family & Cosmetic Dentistry. Due to Dr. Kelly's love for the science of dentistry, this seemed the ultimate road to travel.

Since arriving in North Carolina Dr. Kelly has served as a Deputy Examiner for the North Carolina State Board of Dental Examiners. Also Dr. Kelly donates several hours of his time per month to free dental clinics in the Piedmont Triad Area. Dr. Kelly is an active member of the Forsyth County Dental Society, The American Dental Association, The North Carolina Dental Society, The Piedmont Society of Advanced Dental Studies, International Congress of Oral Implantology, Fellowship in the Academy of General Dentistry and a Fellow of the American Academy of Implant Dentistry and Diplomate of the American Board of Oral Implantology. Dr. Kelly is an

avid learner and strives to stay well informed of all new techniques and developments in his beloved profession.

Publications:

Immediate Implant Placement After extraction: A literature review.

Product Evaluation for Dentists USA and ACE Surgical

Further Education/Courses Training:

1988 Graduate of Core Vent Institute in Encino, California

Graduate of the Implant Maxi Course at the Medical College of Georgia and a Clinical Educator for Bio Horizons, Camlog USA, DENTSPLY Tulsa Dental Specialties (Ankylos), and Sterngold

## SPEAKER DETAILS

Dr. Karateew's dental education is a lifelong process, as he continually strives to improve himself through teaching, lecturing, writing and discussions with fellow colleagues. He currently maintains a high-end boutique style solo practice in beautiful Vancouver, Canada concentrating on implant assisted dental rehabilitation and aesthetics.

His formal dental education was initiated in New York City at Columbia University, where he completed his DDS degree, which was followed with a year-long AEGD at the Columbia-Presbyterian Medical Center, also in New York. Dr. Karateew then attended the University of Pennsylvania in Philadelphia, where, after an additional four years, he obtained diplomas in both Periodontics and Fixed Prosthodontics. He has served on the faculties of the University of Washington, in post-graduate Prosthodontics, and the University of British Columbia both in undergraduate Prosthodontics and postgraduate Periodontics as the Director of Implant Surgery. He is currently an invited sessional lecturer to the University of British Columbia, the University of Pennsylvania and to Columbia University, as well as having advised at PacLive! clinical sessions.

Dr. Karateew has held a position on the Executive Committee of the Canadian Academy of Restorative Dentistry and Prosthodontics, and is currently a contributing consultant to the Canadian publication, Oral Health. Additionally he is the Implant Section Editor for the Journal of the Canadian Academy of Restorative Dentistry and Prosthodontics. He has been duly elected as a Fellow of the International Academy of Dental and Facial Esthetics, and is a Fellow, IPS Master and Diplomate of the International Congress of Oral Implantologists.

He has published articles in peer-reviewed journals such as The International Journal of Dental Research, The Journal of Esthetic Dentistry, The Compendium of Continuing Dental Education and Oral Health. In addition to being the principal mentor to five study clubs throughout British Columbia, Dr. Karateew presents his original material both nationally and internationally; in past at the annual meetings of the American Dental Association, Vancouver and District Dental Society, Canadian Academy of Restorative Dentistry and Prosthodontics, International Congress of Oral Implantologists, Iranian National Dental Congress, Iranian Academy of Periodontology, American Academy of Dental Research, Worldwide Dental Seminars Inc. and on behalf of the American Academy of Implant Dentistry (AAID) at their International Maxi-Course as well as the AAID annual general meeting. Dr Karateew has also recorded a webcast for the prestigious DentalXP.com. He is an advocate for the Ankylos Implant System from Tulsa Dental Specialties.

### SPEAKER DETAILS

Gary Henkel, DDS, operates the Pine Run Dental and Implant Center in suburban Philadelphia, Pennsylvania. The practice emphasizes dental implant and full mouth rehabilitation, microscope enhanced dentistry, and is equipped with cone beam tomography and digital radiography. Dr. Henkel lectures and consults nationally and internationally on dental implants, 3D imaging, endodontics, and bone and extraction socket preservation. He is a master in the Academy of General Dentistry, and has taught at University of Pennsylvania and Thomas Jefferson University Hospital. He consults for Vista Dental Corp. on endodontic products, Cadent Corp. on the Itero digital impression system, and teaches and consults with Osstem Corp., new to the US in the dental implant field. Dr. Henkel is also involved with cone beam beta testing for Imaging Sciences Corporation and Gendex, and lectures for them nationally. He has been asked to lecture for the Perio Institute and Alvelogro on bone preservation.

### SPEAKER DETAILS

Dr. Holger Dennhardt MD DMD FICD MSc graduated from Harvard Medical School in 1988 and from University Tuebingen, Germany in 1989. He continued his training in periodontology and endodontology. As a member of the Institute of Peridodontology and Implantology in Munich, Germany he studied microsurgical procedures in periodontology and the influence of endodontic treatment to periodontitis. After passing the periodontal and endodontical postdoctoral program at the Academy of Advanced Dental Studies he was appointed to be a specialist in endodontology and periodontology.

He is an active international lecturer and author / coauthor of many scientific articles and book chapters. He has been invited as a main speaker in national and international endodontic and periodontic congresses. He has focused his interests on endodontic materials, clinical endodontics and regenerative procedures, microsurgery and Perio-Endo-Problems. From 2002 he works in private practice in Landshut, Germany, limited in endodontology and microsurgery. He is a member of the scientific board at University Krems, Austria and the Carl-Zeiss-Academy, Switzerland and founding member of the German Society of Endodontology. In 2004 he was appointed to a Fellow of the International College of Dentists.

### SPEAKER DETAILS

Co Owner and operator of Dickerman Dental Prosthetics, Sharon, MA USA. Dickerman Dental Prosthetics is a full service dental laboratory. Dickerman specializes in full mouth rehabilitation and complex restorative dentistry. Ira worked from the age of 13 in his father's dental laboratory. Ira was formally trained in dental technology and has worked full time as a dental technician since 1977. In 1984 Ira had the opportunity to fabricate the first Branemark Hybrid Prosthesis to be delivered in New England. In 1994 he was awarded the Massachusetts Dental Society's Technician of the Year Award and in 2009 was awarded the Excellence in Education Award from the National Association of Dental Laboratories. Since that time Ira has lectured Nationally and Internationally to Dentists, Dental Technicians and Implant Manufacturers Staff. His lectures include many topics of interests to dentists and technicians including but not limited to: Dentist- Dental Laboratory Communication, Dental Photography, Dental Implants for dentists and technicians and Power Point Training. He has taught via lecture as well as with hands on formats. Married 27 years to Cindi and the father of two children Brandon and Danielle.

### SPEAKER DETAILS

Prof. Steier graduated Dental School in 1982 and received his PhD the very same year. He maintains private/referral practices in Germany and London (UK) where he acts as a Specialist in Prosthodontics and Specialist in Endodontics.

Prof. Steier has supervised doctoral thesis, lectured internationally, conducted over 200 CE programmes around the world and published extensively including chapter in textbooks.

Dr Steier won the first prize for research at the IADR in Baltimore 2005.

He is a Fellow of different international dental academies as well as having memberships in several societies.

Prof. Steier is Visiting Professor at Tufts School of Dental Medicine (US), Visiting Professor at Florence School of Dental Medicine (I) and Course Director of the MsC in Endodontics at Warwick Medical School (UK) where he acts as Hon. Clin. Assoc. Professor.

He is the Clinical Editor of Dental Tribune Uk as well as Editor – in – Chief of reality Endo.

### SPEAKER DETAILS

Dr. Terrell Pannkuk, a native of California, graduated from U.C.L.A. with a degree in Biology, Georgetown Dental School with a D.D.S., and Boston University with an M.Sc.D. in Endodontics. He is a Diplomate of the American Board of Endodontics, former editor and publisher of "The Endodontic Report", former president of the Boston University Endodontic Alumni Association, current reviewer for the Journal of Endodontics (official journal of the American Association of Endodontists), and international lecturer-author of topics relating to clinical endodontics.

He lives with his wife and two sons and practices in Santa Barbara, California.
