

OZONOTERAPIA DENTALE ED ODONTOIATRIA INNOVATIVA

SPEAKERS PROGRAM

Communication Goals

This Course aims to inform and inspire Participants to a new practice of Dentistry focused on:

Bioethical Values of Primary and Secondary Prevention

Therapeutic Interventions involving Ozone

By Means of:

Knowledge of Molecular Mechanisms

Knowledge of Biochemical and Physical Mechanisms

Knowledge of Experimental Data and Related Nosography

Development and comparison of various strategies of Diagnosis and Treatment.

COURSE FEATURES

Information in Italian are available at:

http://www.mauriziomaggioni.it/corso_firenze_ozonoterapia.htm

Session 1 – First and Second Modules

Friday, May 19th, 2006

Saturday, May 20th 2006

Suggested Topics to International Speakers are the following:

Prof. Romano GRANDINI

Welcome to Participants

Prof Giovanni Dicran MEGIGHIAN

Dental Epistemology and Nosography.

Dr.Dent Hyg. Tracey LENNEMANN

Innovative technologies and Strategies in Preventive Dentistry

Dr Francesco SANTI

Oral Pathologies and Metabolic Processes

Dr Gabriella GOZZELLINO

Diagnosing Dental Caries.

Dr Franco FRANCHI

Ozone in General Practice

Dr Ing. Frank BERLIGHOFF

Promoting Ozone Technologies

Dr Elena

Ozone and Special Care Patients

Prof Antonio SCALA

Ozone Therapy in Oral Pathology and Parodontology

Prof. Dipak JOSHI

Clinical Experiences with Ozone part 1

Every Lecture should not exceed 80 minute time length. A 15 minutes break follows each lectures. The speakers are invited to consider the translation time .

Lecture starting at 12.10 should not exceed 50 minute time length.

OZONOTERAPIA DENTALE ED ODONTOIATRIA INNOVATIVA

Session 1 – First and Second Modules

Friday May 19th, 2006

- 9.00 Prof. Romano Grandini
 - Welcome to Participants
 -
- 9.15 Dr Giovanni Dicran Meghian
 - Dental Epistemology and Nosography.
- 10.30 Prof. Dipak JOSHI
 - Clinical Experiences with Ozone part 1
- 12.10 Dr Francesco Santi
 - Oral Pathologies and Metabolic Processes

13.00 Lunch

- 15.00 Dr Gabriella Gozzellino
 - Communicating to the Patient.
- 16.00 Dr Tracey Lenneman
 - Innovative technologies and Strategies in Preventive Dentistry part 1

Saturday, May 20th, 2006

- 9.00 Dr Tracey Lenneman
 - Innovative Technologies and Strategies in Preventive Dentistry part 2
 -
- 11.00 Dr Elena
 - Ozone and Special Care Patients
- 12.10 Dr Franco Franchi
 - Ozone in General Practice

13.00 Lunch

- 15.00 Dr Ing Frank Berlinghoff
 - Promoting Ozone Technologies

OZONOTERAPIA DENTALE ED ODONTOIATRIA INNOVATIVA

o

- 16.35 Prof Antonio Scala
- Ozone Therapy in Oral Pathology and Parodontology
-

Session 2 – First and Second Modules

Friday June 16th, 2006

Saturday June 17th, 2006

Prof. George FREEDMAN

Selecting new materials and treatment strategies.

Prof Liviu STEIER

Ozone in Endodontics

Prof. Edward LYNCH

Scientific research on Ozone: State of the Art

Prof Luca GIACHETTI

Minimally Invasive Dentistry, Ozone and Adhesion

Dr Howard GLAZER

The selection of Therapeutic Strategies in the Innovative Dental Office.

Prof. Roberto OLIVI

The Role of Ozone in Pedodontics

Prof Francesco SCARPELLI

Prof. Maurizio MAGGIONI

Laser and Ozone

Prof. Dipak JOSHI

Clinical Experiences with Ozone part 2

Every Lecture should not exceed 80 minute time length. A 15 minutes break follows each lectures. The speakers are invited to consider the translation time in the International Modules

Lecture starting at 12.10 should not exceed 50 minute time length.

OZONOTERAPIA DENTALE ED ODONTOIATRIA INNOVATIVA

Session 2 – First and Second Modules

Friday June 16th, 2006

- 9.00 Prof. Romano Grandini
 - Welcome speech
- 9.10 Prof. Edward Lynch
 - ----- part 1
- 10.45 Prof. Edward LYNCH
 - ----- part 2
 -
- 12.00 Dr Luca Giachetti
 - Ozone involving techniques in Conservative Dentistry

13.00 Lunch

- 15.00 Prof. Roberto Olivi
 - Ozone in Pedodontics
- 16.15 Prof. Maurizio Maggioni/Prof. Francesco Scarpelli
 - Integrating Ozone in Innovative Dentistry
- 17.15 **Prof. Liviu Steier**
 - Ozone in Endodontics part 1

Saturday June 17th, 2006

- 9.00 **Prof. Liviu Steier**
 - Ozone in Endodontics part 2
- 10.15 Prof. George Freedman
 - ----- part 1 - part 2

12,30 Lunch

- 14.30 Dr Howard Glazer
 - Experiencing the techniques supervised by the Speakers
- 16.30 Prof Dipak Joshi
 - Clinical Experiences with Ozone part 2 (Discussion)

OZONOTERAPIA DENTALE ED ODONTOIATRIA INNOVATIVA

18.30 End of Course
